PROFILE SUMMARY

Product Designer with 5+ years of experience designing enterprise software, AI-powered products, fintech platforms, and digital ecosystems. Currently shaping strategic products at Emkay Global, including an AI financial wellness platform and investment copilots. Expert at translating complex data and user workflows into production-ready, highly intuitive interfaces.

PROFESSIONAL EXPERIENCE

UI UX Designer @ Emkay Global Financial Services Pvt. Ltd. Sep 2025 – Present | Mumbai, IN

- Artho (AI Financial Wellness): Led end-to-end UX for an enterprise financial health platform. Simplified intricate analysis, document intelligence, and personalized planning into actionable dashboards.
- DENSI (AI Copilot): Co-Designed investment research assistant workflows for structured financial reports, balancing complex data visualizations with conversational search and discoverability with a dedicated research canvas.
- Blitz (Trading Platform): Designing next-generation proprietary trading interfaces prioritizing speed, responsive grids, and scalable system patterns supporting high-frequency decision making.
- Ecosystem Rebrand (Emkay): Spearheading the UX design system, responsive UI library, and defined accessibility standards (WCAG) across Wealth, Capital, and Asset management verticals.

Product, UX & Visual Designer Feb 2021 – Sep 2025 | Mumbai, IN

- Led end-to-end UI/UX design for multiple web and mobile projects, from research and user flows to high-fidelity prototypes and developer-ready assets.
- Designed and optimized user interfaces for digital campaigns and product landing pages for BrandSocial (2025), Astra Security (2024), Primer (Contract, 2023) and more, focusing on usability and conversion.
- Redesigned company product and landing pages for EventEngage (Contract, 2022), improving user engagement and satisfaction through competitive analysis and research-driven interface improvements.
